TFL ON PLYWOOD. TOGETHER AT LAST.

ELEVATE WITH EVERPLY™

EverPly solves previous challenges of TFL on Plywood by offering a virtually void-free solution that meets the high quality requirements of premium manufacturers. Our proprietary core has been specially engineered for TFL lamination. So you can expect – and recieve – the best solution possible for your kitchen or closet project.

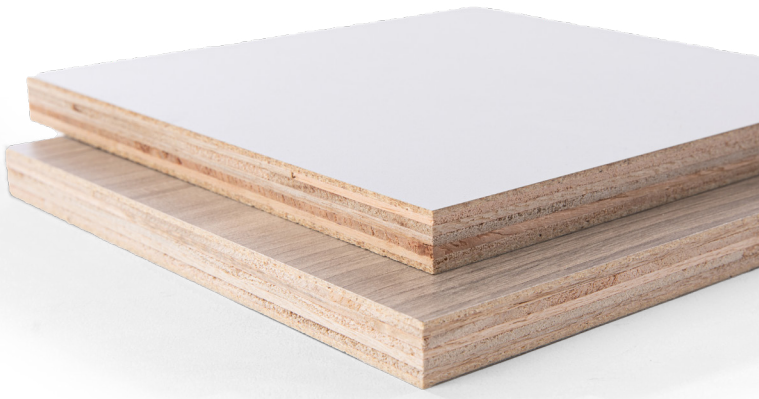
ENGINEERED FOR YOUR CORE NEEDS

Virtually void-free
Fewer core voids means lower scrap rates overall, helping you limit wasted time and budget

Strong yet lightweight
Offers the durability of TFL in a lighter alternative to traditional composite panels (particle board and MDF)

Opens up design possibilities
Availability in over 70 designer TFL decorative laminates (smooth texture) with 4 realistic wood texture options

Enhanced stability
This plywood core is specifically designed to resist environmental fluctuations in humidity



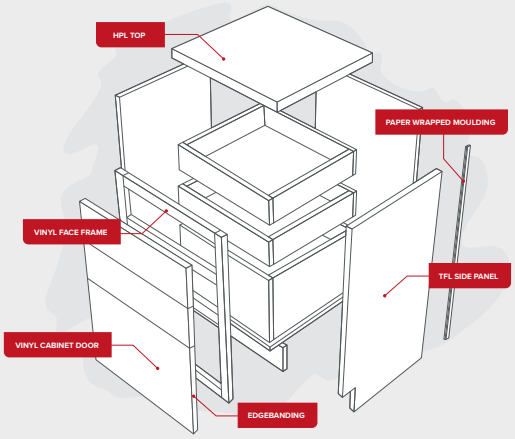
DELIVERING DISTINCTION

We are the first U.S. manufacturer to provide a plywood core for TFL that is virtually void-free with a nearly 0% scrap rate, eliminating the need for a mill-run disclaimer.

EverPly™ is an essential path for closet and cabinet manufacturers to deliver elevated offerings and a true differentiator in the market.

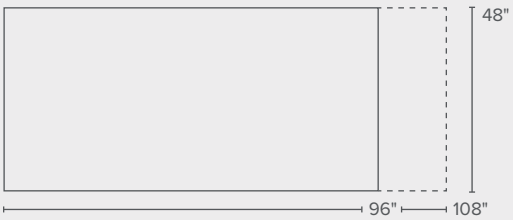
COMPLETE THE PANEL WITH SURFACE SYNERGIES

Our decorative surface program has been revamped and is now the most complete in the industry. With over 35 colors to choose from, we can match up to 6 surfaces, EverMatte™ included.



STANDARD SIZING

We know that flexibility in size and substrate matter in helping you realize your vision. Build a program with us that meets your project needs with the ability to choose from these panel thicknesses.



Oversize dimensions available upon request.

Core thickness

12mm | 16mm | 18mm | 19mm

725 – Misty Morning | Quartered Oak Collection

PAIR EVER**PLY** WITH ANY OF OUR MORE THAN 70 WOODGRAINS OR SOLIDS
